Airport Metro Connector 96th Street Transit Station Draft
Environmental Impact Report

[View this email in your browser](#)

Airport Metro Connector 96th Street Transit Station

The Draft Environmental Impact Report (DEIR) for the Airport Metro Connector 96th Street Transit Station is now available for public review and comment.

Today, the Airport Metro Connector Project Team released the Draft Environmental Impact Report (DEIR) for the Airport Metro Connector (AMC) 96th Street Transit Station for a 45-day comment period. Once complete, the AMC will connect the regional rail system to Los Angeles International World Airport's central terminal via an Automated People Mover (APM) that is being planned, built and operated by the Los Angeles World Airports (LAWA). The station is envisioned to be the new "Gateway" to LAX for transit riders and will be served by both Metro Green and Crenshaw/LAX Lines. It will feature a bus plaza for Metro and municipal buses, passenger pick-up/drop-off, and amenities for pedestrians and bicyclists.

The project team will be hosting a public hearing on Wednesday, July 13 from 6:00pm to 8:00pm at the Flight Path Museum located at 6661 Imperial Highway, Los Angeles, CA 90045. The meeting location is served by Beach Cities Transit Line 109 with connections at Metro Green Line Aviation/LAX Transit Station and LAX Transit Center.

The public is invited to provide comments at that hearing or by the deadline of 5 p.m. on August 6, 2016.

Please go to the project [website](#) to learn more about the project, view the Draft EIR, see the list of locations where the document is available for public review, get details on the upcoming hearing and how to submit comments.

You can reach us at laxconnector@metro.net or [\(213\) 922-4484](tel:2139224484) with any questions.
